Ui Developer

Swapnarani Behera.

Phone:+91 8658502506

Email:swapnarani.sonu@gmail.com

Objective

Passionate front end developer with 5months of experience using HTML5, bootstrap, CSS, figma, Adobe Photoshop and wordpress to build all aspects of the user experience and user interface for client-facing landing pages. Specializes in using jQuery to build e-commerce sites.

Technical Skills

- Expert knowledge of CSS, CSS extension languages (Less, Sass), and CSS preprocessor tools.

- Expert knowledge of HTML5 and its best practices.

- Proficiency in designing interfaces and building clickable prototypes using {{ Sketch, InVision, etc. }}.
- A history of deconstructing user behavior to create an improved experience for users, showcased in the form of blog posts, articles, screencasts, etc.

- Proficiency using Git version control.

- Proficiency using the command line.

Education

- Pass out in 10th in H.S.C Board in 2009
- Completed +2 Arts in C.H.S.E Board in 2011
- Graduated (+3Arts) from Utkal University in 2014

Role & Responsibilities:

- Create a responsive and adaptive user interface to provide an optimal experience on both mobile and tablet devices.
- Write clean, maintainable code in JavaScript and CSS to implement the front-end components and features of the mobile application. Ensure compatibility across various devices and browsers.
- Basic understanding of server-side CSS pre-processing platforms.
- Implement best practices for performance optimization to ensure fast loading times and a smooth user experience.
- Proficient understanding of cross-browser compatibility issues and ways to work around them.
- Good understanding of SEO principles.
- In-depth understanding of the entire web development process (design, development, and deployment).
- Familiarity with software like Adobe Suite, Photoshop, and content management systems.
- Excellent analytical and multitasking skills.
- Have passion and experience for building responsive, elegant, and engaging experiences with future-friendly web technologies.
- Work closely with designers to take wireframes from conception to implementation and design and improve user interfaces.
- Stay up-to-date with the latest trends and technologies in front-end development and incorporate best practices to continually improve the application's UI.
- Have an interest in, understanding of, or experience with Design Thinking Methodology.
